

Sweden

Hello Joel!

Now I'm going to tell you about my country Sweden.

In Sweden we have 9 millions habitants. Our capital is Stockholm and most people live in the south.

That's because in the north it is very cold. In the winter it can be up to - 30 C (!)

When it's summer the degrees can be up to 20-25 C.

We have a lot of animals, like mooses, seals, wolves, beavers, bears and so on. But all these animals like to live when it's cold.

In Sweden we have a royal family, with a King and a Queen.

But we also have a Prime Minister and democracy.

We have a lot of holidays in Sweden. We celebrate Halloween, Midsummer, Christmas, Easter and New Year's Eve. The biggest holidays are Midsummer and Christmas.

Bye for now!

Moa
